

***TROUBLE WITH ALCOHOL* DVD Resource**

Staff & Client Follow Up Evaluation

Survey (Total) Respondents:

16 practitioner responses
3 young people responses

Training Attendance:

Majority of practitioners (13) had attended the training session (in January 2011) at 81%

Resource Use:

10 reported use of the tool (62%)
4 at the time of survey had not used, but intended to use in near future (27%)
2 did not indicate present or intent to use (13%)

A wide and fairly even range of use indicated, from 1-2-1 and group work with young people (33%) and adults (20%), and as a staff training resource (33%)

85% of those using did so on an ad-hoc basis not necessarily following the supplementary training notes

Impact/Outcomes:

Total of 12 positive outcomes indicated for a total of 5 young people relating to; alcohol use, offending, antisocial behaviour, attitude, attendance (appointments, school) and relationships

Training tool; improving practice

An increase in awareness and knowledge of alcohol issues in relation to young people and offending, and an increase in awareness and knowledge of local services for those using was recorded for 10 (62%) of practitioners

Additional Practitioner Comments (Summary):

Excellent and useful resource, suited to use with young people especially (less so with adults) and is starting to impact on behaviours

Young People:

3 Young people reported change in attitude (3) alcohol use (1) and alcohol related offending (1)

All (3) took the opportunity to discuss the usefulness of seeing/hearing other young people's experiences of alcohol and offending and noted this as being the most important aspect of the resource
